Discontinued Listing

Due to decreasing demand and manufacturing limitations, Kodak announces it has made the decision to exit the Aerial Imaging Business. The specific items included in this discontinuance are listed below. Kodak will accept orders for these items through November 1, 2014. Orders will be filled on a first come, first served basis. Kodak may limit order quantities and adjust delivery dates based on production schedules and capacity. Since it is not always practical to produce exactly the amount ordered, Kodak reserves the right to ship plus or minus 10 percent of the ordered quantity for these products. Catalog stated minimum and multiple order quantities apply. Orders must call for immediate delivery.

All orders will be final and are not cancelable. Product will be shipped as soon as produced for customer delivery. Orders cannot be placed for future delivery.

Page	Product Description	CAT No.
8	**KODAK PANATOMIC-X AERECON II Film 3412 / ESTAR Thin Base**
