KODAK **PRINERGY**
MANAGED SERVICES (KMS)

SIMPLE. SECURE. ALWAYS ON.

KODAK PRINERGY Managed Services (KMS) shifts your on-premises workflow IT infrastructure to a virtual environment in the Microsoft Azure cloud, then monitors and manages it 24/7, freeing you from the costs and constraints of system administration. Our proactive and highly secure management system is **always on**, with peace of mind, you can sit back and enjoy upgrades and real-time analytics. We will do the rest.

Revolutionary
Industry first innovation, marrying cloud technology to managed services.

Scalability
Improve cost efficiencies by easily adjusting resources as demands change.

Proactive Security
Backed by Microsoft Azure, with a $1B+ investment in security and R&D, multi-layered security to protect your data 24/7.

Reliability
Your system is always on providing steadfast and proven reliability in performance.

Reduce IT Costs
Allow your on-staff IT professionals to focus on other important projects, saving time and network maintenance costs.

Identify Key Growth Opportunities
Decision analytics reports provide historical production trends in real-time.

Business Continuity
Your data is backed up in real-time. In the event of a catastrophic fail, data is safe and can be recovered ensuring business continuity.

Reduce Cost of Ownership
Remotely managed upgrades and updates eliminates the need for expensive hardware, optimizes time-to-value ratios and lowers the total cost of ownership.
